PRICE FIVE CENTS

## I.F.C. Signs Bob Hardy For Formal

### Boston Band Leader Supplements Clinton With Specialty Music

Chosen to provide specialty music at the Annual Inter-Fraternity Conference Spring Dance, Bob Hardy and his orchestra will play the rhumbas, congas and waltzes for the entertainment of fraternity men and their guests in the Imperial Ballroom of the Hotel Statler, on Friday, April 25.

Making his way to success as one of Boston's favorite dance band leaders, Hardy has attracted crowds at the Ritz Roof, and has played at the Flamingo Room, and the Sheraton Roof.

#### Hardy to Spell Clinton

Augmenting the rhythms of "Dipsy Doodler" Larry Clinton, Bob Hardy and his outfit will specialize in the exotic rhumbas and congas. Virginia Wilson, vocalist with the Hardy Band, is to provide lyrical sidelights.

Tickets at \$5.00 per couple will be distributed to all the fraternities on the campus tonight. Limited to a total of 450, the options will be allotted to each house in proportion to the number of members. Although primarily a dance for fraternity men, commuters and dormitory residents may obtain tickets through their fraternity friends.

## Mayer Will Play For 5:15 Carnival

### Tech Men Will Vie For Rube Goldberg Contest Honors

Leon Mayer and his orchestra will play for the All-Tech Carnival according to an announcement made last night by Louis A. Iacobacci, '42, chairman of the 5:15 dance committee. Dancing will be held in the Main Hall of Walker from 8:00 to 12:00 P.M., Saturday, April 26.

A Rube Goldberg contest open to fraternity, dormitory, and commuter groups will be one of the carnival attractions. The advance of hopeless research is to be the theme of the contraption which will be constructed by the hands of Technology engineers. Each machine will show how a simple operation may be successfully performed with the aid of science and much machinery.

#### Prize Offered to Winner

First prize is announced as a fifteen gallon keg of beer plus one year's possession of a unique trophy. The second prize will be a case of beer. The third prize winning entry will

(Continued on Page 4)

## Largest Dean's List In History Led By Seniors With 284 Placing

Leading the roll in the largest Dean's list ever to be announced since the list's inception in 1931, the Senior Class placed 284 men on the honor roll. Totalling 938 students, the Dean's list contains 231 Juniors, 222 Sophomores, and 201 members of the freshman class.

This alltime high represents an increase of 51 students over the list for a similar period last year, an increase of 5.5%. A total of 115 students attained the first rank in the list by holding a 4.5-5.0 term rating. This approximately maintains the comparable level of the last several years. The Seniors had a representation of

### Activities Must Submit '41 Handbook Copy Soon

All student activities desiring write-ups in the 1941 T.C.A. Handbook should submit copy as soon as possible. With no probable exceptions cards have been sent to all activities, but in case any have been overlooked, they are asked to apply to Alan Kirkpatrick III, '43 in the T.C.A. office, Walker Basement.

It is essential that arrangements be made as soon as possible concerning writeups, since all material for the 1941 Handbook must be in by April 21st.

## Stratton Prize Finals To Be Held Wednesday, April 9

### Erlandson, Haas, Hand, Backer, Herron, Regan To Compete Tomorrow

The final presentation of the papers in the Stratton Prize competition will be given at a Convocation in Huntington Hall at 3:30 P.M. on Wednesday, April 16, presided over by President Karl T. Compton.

Judges for the final competition were announced last night and include Mr. R. D. Booth of the firm of Jackson & Moreland, consulting engineers; Mr. Franklin T. Kurt, Principal of Chauncy Hall School; and Mr. A. Warren Norton, manager of the Christian Science Publishing Society.

#### Six Finalists Remain

The six finalists in the competition are: Stanley Backer, '41; Paul M. Erlandson, '41; Ward J. Haas, '43; S. Ellis Hand, '41; David P. Herron, '41, and Francis A. Regan, Jr., '41.

All members of the faculty and student body have been invited to attend the Convocation which will be called by President Compton. Again this year, the tenth of the Stratton Prize Competition, Professor Samuel C. Prescott, Dean of Science, has urged that arrangements be made for classes so that as many students and members of the staff, as possible may attend the Convocation.

## Sargent Girls To Attend 5:15 Dance Saturday

Fostering its policy of better relations between commuters in the various Greater Boston colleges, the 5:15 Club will hold a dance with girls from Sargent College, from 8 to 12 P.M. next Saturday, April 12. Fifty girls are expected to come to Technology for dancing in the 5:15 Club Room.

Music is to be supplied by the club victrola, and refreshments will be served for all who attend the dance. Tickets will be on sale every day during the remainder of this week from twelve to two in the club room, priced at thirty-five cents per ticket. The number of tickets, however, is limited to fifty.

# Class Presidential Nominees Will Speak At Open Forum In Huntington Hall Today

## NOMINEES FOR CLASS OFFICERS

### CLASS OF 1941

Permanent President:	Willard S. Mott	
Permanent Secretary:	Stanley Backer	
Marshals:	Wilson M. Compton, Jr.	Donald D. Searff
	Warren J. Meyers	John F. Sexton
	Joseph H. Myers	James S. Thornton
	Howard J. Samuels	Teddy F. Walkowicz

### CLASS OF 1942

President:	Jerome T. Coe	Carl L. McGinnis
Secretary-Treasurer:	Robert S. Shaw	John T. Carleton
Inst. Comm. Rep:	Ernest F. Artz	Carthrae M. Laffoon
	John L. Collins	Robert B. McBride

### CLASS OF 1943

President:	S. Richard Childerhose	John O. Karstrom
Secretary-Treasurer:	Christian J. Matthew	Robert B. Rumsey
	John W. McDonough	Robert J. Schaefer
Inst. Comm. Rep:	James T. Harker	James A. Malloch, Jr.
	Thomas S. Maples	Robert W. Maxwell

### CLASS OF 1944

President:	Langdon S. Flowers	Robert B. Meny
Secretary-Treasurer:	Robert V. Bartz	Frank E. Carroll
Inst. Comm. Rep:	Bruce T. Benepe	Douglass E. Root, Jr.
	James R. Eberly	Howard Weaver

## Senior Ring Deliveries Start Tomorrow Morning

A representative from the jeweler for the Class of 1941 will be in the Main Lobby of Building 10 on Wednesday and Thursday, April 10 and 11 from 10:00 A.M. to 4:00 P.M.

He will have with him those rings which were ordered previously and are now finished. In addition he will take new orders for the rings from those Seniors who have not yet ordered.

## Institute Libraries Gain Many Books

### Six Hundred Monthly Added To Thousands According To Seaver

Over six hundred new books a month have been added to the 340,000 volumes in the Technology libraries during the past year, announced William N. Seaver, Librarian of the Institute. The total home use of books was boosted to approximately 12,000 per month.

This year was the busiest in the Library's history. The loans of one- and two-week books have increased one hundred and twenty-seven per cent in the last ten years. If circulation follows the trend indicated so far this year, more than ten per cent more books will be borrowed this year than were last year, bringing the expected total to more than one hundred and fifty thousand. The greatest users of the library were the undergraduates, but the graduate students and Instructing Staff together were responsible for half of the loans.

#### E.E. Men Use Most Books

An analysis of the circulation at the Central Library showed the largest number of books were borrowed in the subjects of Electrical Engineering, History, Physics, Literature, and periodicals, in that order. The Reference Department reported a large increase in Library transactions with persons and firms outside the Institute. The library handled more than fifteen hundred interlibrary loans during the past year.

In order to run this expanding program the library spent over twenty-one thousand dollars on books, periodicals, and bindings, and one hundred and seventy-eight dollars on phonograph records for the victrola which is under its supervision.

## Dr. Compton Heads Assembly Ball Patrons

### Walker Staff Formal Will Be Held April 18; Don Gahan To Play

President and Mrs. Karl T. Compton are to head the list of sponsors and patrons of the seventh Annual Walker Assemblies Ball on April 18th. Others in the list will be Mr. and Mrs. Ralph T. Jope, Mr. and Mrs. Horace S. Ford, Professor and Mrs. James R. Jack, Dean and Mrs. Robert G. Caldwell, Dean and Mrs. MacCormack.

Mr. and Mrs. Marshall B. Dalton, Professor and Mrs. Leicester F. Hamilton, Mr. and Mrs. Delbert L. Rhind, Mr. and Mrs. Albert W. Bridges, Mr. and Mrs. Wallace M. Ross, Mr. and Mrs. George W. Ives, and Mr. and Mrs. Egbert C. Hadley complete the roster.

#### Gahan Will Play for Ball

The Assemblies ball this year has secured the music of maestro Don Gahan and his troupe of entertainers. Decorations for the formal affair will be in the traditional royal purple with special floral effects. The bandstand and front lobby are to be festooned with flowers and laurel will be looped from chandelier to chandelier in Morss Hall.

## Frosh Counselling To Start April 17

As an aid to freshmen in choosing a suitable course, the Course Counseling program, sponsored annually by the T.C.A., will begin Thursday, April 7, with a discussion on "Planning An Education," to be given in Huntington Hall at 4:00 and then again at 5:00 P.M. This talk will be given by two faculty members to be chosen by the T.C.A. Course Counseling Committee.

Later in April, the committee will make arrangements whereby opportunities will be extended to all freshmen to meet representatives of the different courses in which they may be interested, and to discuss with these representatives any problems concerning the proper choice of course. This year's committee is composed of Frederick J. Kolb, Jr., G, chairman with John L. Ohlson, G, and William R. Ahrendt, '41.

## Debating Society Sponsors Meeting To Let Candidates Explain Policies

With the annual elections for class officers scheduled for tomorrow, attention focuses on the Open Forum to be held at 5:00 P.M. today in Huntington Hall, when presidential nominees in all three classes will present their views on some aspect of campus life. Sponsored by the Debating Society, the Open Forum will give Presidential Candidates an opportunity to briefly address fellow members of their classes and to explain their policies.

Presidential candidate for the Class of 1942, Jerome T. Coe, will speak on "Intramural Sports", and his opponent Carl L. McGinnis will consider "Student Government."

#### Childerhose to Discuss Dances

Running for president in the Class of 1943, S. Richard Childerhose will discuss "Dances and the Junior Prom", while John O. Karstrom last night was unable to divulge the subject of his speech. In the Class of 1944, Presidential nominee Langdon S. Flowers speaks on "Dance Committees, student government, and freshman hazing." Robert B. Meny, Class of 1944 will give his views on "Tech dances and athletics."

A complete list of the nominees for the class elections may be found on page four with pictures of presidential candidates.

## Course Planned In Life Saving

### Instruction Will Lead To Red Cross Award In Seventeen Hours

Preparatory to the award of an American Red Cross Senior Life Saving Certificate, a life saving course is planned to be given in the Alumni Pool starting April 14th, it was announced last night by Arthur H. Sweeney, '42, swimming manager.

To be eligible for the seventeen hour course applicants must be at least seventeen years old and in good physical condition. There will be a preliminary swimming requirement to consist of a standing front dive, a 440-yard swim using a hand-over-hand, a side and a back stroke dive six feet down and a swim under water, floating and water treading.

#### Jarosh to Head Instruction

Students interested in this course should see swimming coach John J. Jarosh for details about hours. If sufficient interest is shown, an instructor's course will also be given.

## Technique Goes On Sale Today At Five Dollars

The 1941 Technique will be on sale today, tomorrow, and Thursday for \$5.00 in the Main Lobby of Building 10 from 9:00 A.M. to 5 P.M., according to an announcement made last night by F. Richard Meyer III, '42, Technique circulation manager.

Pictures appearing in the 1941 issue of the Technique, fraternity pictures excepted, will also be on sale. These photographs are eight by ten inches in size and are priced at 50 cents.

## A GENERAL TURNOUT CALL

Tonight at 5:00 P.M. in Huntington Hall, the first real attempt at acquainting Technology voters with their candidates before class elections will be sponsored by the Debating Society. At that time, the presidential candidates of the Classes of '42, '43, and '44 will have the opportunity to present their opinions on various problems that face each class and the manner in which they will tackle the job if elected.

With each class so large, it is impossible for all of the voters to know the candidates personally and know their individual capabilities. This is further handicapped by the fact that we do not have chapel programs of any sort at which the whole class is brought together. The only time that a class is together at one time is at Field Day, where the conditions for determining the ability of leaders are rather poor, and at graduation when the jig is all up. The Open Forum will in a small measure relieve some of these conditions.

A second usefulness of the political Open Forum should be its tendency to develop class election interest within the student body so that students will go to the polls with an idea of what they are voting for rather than just picking a name out of the hat. The main purpose of collegiate politics is the training that it gives the student; a training that is of utmost value in a democracy.

Tonight all three classes will attend the same forum. However, the interest and attendance at this forum will in a large measure determine the extent to which this program will be carried out next year. It is up to each class to back this forum in its attempt to raise the standards of class elections. Let's pack 10-250!

## EVER UPWARD

Institute students seem to be getting smarter and smarter. This is the only conclusion that can be drawn from the newly released Dean's List for last term since the largest number of students in history managed to obtain ratings high enough to meet honor standards.

This result carries out the general trend that has existed ever since the Dean's List was instituted in 1931. In addition to the largest numerical total on the list this past term, the largest percentages for each class were also achieved.

The percentage standings were in the order of classes, the seniors coming first and the freshmen last. This would seem to indicate that students become hardened to the way of life upon exposure.

Whatever the underlying factor behind the consistent increase in the ranks of those

attaining Dean's List ratings, the Institute and the student body as a whole should be proud that such a condition exists. It indicates that the Institute is still climbing and has not yet reached its peak. At the same time, it presents us with the challenge to keep the scholastic standards on the upswing, to push the Institute's reputation upward, rather than to ride on its crest. We are the ones who control Technology's standing of tomorrow.

## 100% NOT BUST

It is a well known fact that college students, Technology in particular, are completely immune to lectures of any sort. For this reason, when any direct contact with the student is desired the traditional lecture system is abandoned and the more personal bull session is adopted.

Following this line of reasoning, the T.C.A. Embassy, which will be held for the fifth time on April 15, is based upon a series of bull sessions in the different residential groups.

The Embassy is not an attempt to cram religion down the throats of Technology students, but rather to give the students a broader viewpoint of the life about them. Many students place religion in the dark background when they come away to school. Their time is so short that there is none for anything but hard reality. Other students continue in the faith their parents held and in which they were brought up, adhering more or less rigidly to its principles.

Both types of students can gain immeasurably from the Embassy with its intelligent discussion of the many aspects of religion. Those students who have placed religion in the background can obtain the opinion of other people on this subject so that they can see their position more clearly. Those that belong to a faith can benefit by seeing how other faiths approach the same problems they face. In any case, the student has received added information as to how people about him look at life.

The Amherst Student sums up the Embassy thus: "The Embassy is not a high pressure attempt by clerical bigwigs to force Christianity upon undergraduates. On the other hand, it is a challenge to put theological discussion on a plane where it can be approached by both clergyman and student with relatively equal ease. The ministers temporarily abandon their pulpits and rely on hard-boiled arguments to convince an audience which is not composed of docile yesmen leaning on every word and easily awed by prestige. The college undergraduate of today, it seems, will not accept religion on theological terms alone. He must be won over through straight, logical thinking, comparatively unadulterated by emotional argument, or he will not be won over at all."

Each year, the T.C.A. misses its goal of one hundred percent participation by one or two fraternities, and the dormitory response is woefully small. However, each year it is a different fraternity that fails to take part, so no fraternity can claim that it has a standing tradition not to participate. Since the T.C.A. will do everything possible toward making arrangements, there seems to be no reason why one hundred percent participation can not be obtained this year.

## ARE WE MEN?

"Here I have been brown-bagging for three and a half years trying to become an engineer and what do they do—stick me in the army. Why the hell should I do any studying, it's no use any way!"

We hear this attitude expressed over and over again and it worries us. We all know that France was licked primarily because of lack of morale, and we feel smug and superior to the selfish and unpatriotic Frenchmen. Aren't we breeding exactly the same thing right here?

Our country is in danger and we are making every effort to get on our feet to face the enemy. No matter what our personal attitude about this war is, it is our duty to help where our government needs us and not where we would like to be. There is a lot of opportunity to use our training in many places and just because we are not given what we want we have no right to behave like a spoiled child.

## For Boys To Play

by Stewart Rowe and Joseph Tankoos

We take pleasure in welcoming you all back to the serious, sombre atmosphere of the Institute.

Main attention this week will be focused on Technology politics as candidates for the various offices go to the polls. We heartily recommend attendance at the Election Forum sponsored by the Debating Society which will be held today at 4 P.M. in Huntington Hall.

While on the subject, or the verge thereof, we are reminded of the "Model Senate" sessions the Debating Society is holding Tuesday at five in Litchfield Lounge. In an effort to spread a working knowledge of proper parliamentary procedure the Debating Society hit upon something which has turned out to be highly entertaining.

A chairman is chosen to head the meeting at the start and then, following Robert's "Rules of Order" motions are made and bills entered. The chairman holds his position until he pulls a parliamentary faux pas and then his position is taken by the man who discovered the mistake.

Altho nothing comes of the bills introduced some very highly entertaining debates have been held on such topics as women's make-up, tearing down the Hangar Gym, etc.

As always the meeting of the Nautical Association presents an opportunity for the sailing-minded to see a half hour's show of colored motion pictures of the adventures of the Nautical Association's racing teams. "Jack" Wood, who in addition to being Sailing Master is an A-1 motion picture photographer, always has a varied and entertaining program to present at these meetings. As elections to positions in the Association are held at this time it's particularly worthwhile for the Association's 600 or more members to show up in Huntington Hall tomorrow at 5 P.M.

We hear that the Class of '44 is hoping to pull a surprise out of the bag for the Class Dance in May. The Dance Committee won't commit themselves but big plans are in the making.

The very popular Vaughn Munroe and his men of music who have been holding forth all winter at the Hotel Statler's Terrace Room will not play in these parts this coming summer. The record-making maestro has been around Boston and vicinity for quite sometime now and those of you who are Munroe fans had better toddle down to the Statler before he goes west—geographically.

Incidentally, we imagine you all were quite aware that any resemblance our last effort in the April first issue bore to the truth was purely incidental. The night editor needed space for a little advertising and "cut" our last paragraph which let the secret out.

# Lacrosse Team Overwhelmed By Eli, Stevens

Frosh Stickmen Will Open Season Saturday, April 12

With less than two weeks of practice the Tech lacrossemen opened their season with a trip to Yale and Stevens during spring vacation. Though decisively beaten in both games by Yale 19-0, and by Stevens 9-3, the team showed promise, and several members played good lacrosse in spots. Leader and Gander, the Tech scorers in the Stevens' game, as well as Capt. Sibley and Evans were the outstanding Beaver players. In preparing for this trip a practice game with the Boston Lacrosse Club was played to the tune of a 9-5 defeat. The squad bested Yale's frosh last week.

**Frosh News**  
As yet the freshman lacrosse team has not been formed. The squad is not as large as Coach Maddox had hoped it would be, and he is still hopefully awaiting more recruits. This week however intensive practice for the Andover game on Saturday is under way. With a good nucleus for an all around team, at present the offensive strength is predominant. In practice Heckel and Schnell on the attack and Benjamin on the defense have shown the greatest promise.

# Beaver Fencers To Meet Brown Varsity And Frosh Are Heavily Favored In Post-Season Match

Both the varsity and freshman fencing teams will go to Providence this Saturday to test their skill against the Brown swordsmen in a post-season match. The probable lineups for the event are Adelson, Hinchman, and Higgins in the saber class; Krieger, Kellogg, and Scharff with the epee; and Sherburne, Ackerman, and Adelson with the foil. In the New England Intercollegiate invitation tournament held in New Haven last February, Tech took second place as compared with a third place for Brown; and chances are that the Beavers will again better the Bears.

The freshmen fencers will try to continue their unbeaten string of victories and Captain West asserts that they are capable of doing so. The probable frosh lineup is West, Lamport, and Post in the saber; Maconi, Kratz, and Depew with the epee; and fencers Braendle, Seaman, and Gamundi. Sam Lamport who recently clinched a tied match against the Harvard freshmen with a last minute victory might possibly not be able to fence against Brown due to an injured hand.

# Tech Squashmen Compete For Cup

The three annual squash tournaments for the Emerson Cup Championship are all approaching the finals with the squash banquet only a week off. Phil Freeman, Chet Corney, Louis Stouse, Jim Mar, Al Oszy, and Jack Sheetz still remain in the running although the first three are the most heavily favored. The J. V. tournament has reached the quarter-finals with Gunther, Hahn, Gates, Halpern, Shaw, and Newton still remaining. Shaw seems to be the strongest contestant in this group. The outstanding men left in the final tournament for the freshmen are Marshall Rosenberg, Johnnie Cornell, Rich Curry, and Norman Greenman. Marshall Rosenberg has the edge over the other frosh contestants although Johnnie Cornell's chances are very good.

## PIONEERS AMONG COLLEGE PISTOLMEN

Representatives from the Technology and Army pistol squads, two of the nation's twenty-four collegiate teams, pictured at a recent meet at the Institute range. These two schools were the first to recognize pistol as an official sport. Left to right are Owen, T.; Robbins, A.; Captain Birdseye, A.; Captain Henry, T.; Murdock, T.; and Hine, A.

## Technology R.O.T.C. Expansion Aid In Development Of Collegiate Pistol

Little known to the majority of college men, the crack and acrid smell of pistol shooting attracts more men than is commonly realized and is more widespread in its advance than many other competitive sports. It is interesting to note that Technology has played an important part in these advances. With twenty-four college pistol teams shooting in various parts of the country this season, a half-dozen have developed and maintained a standard of shooting excellence comparable with that of the finest civilian pistol clubs and law-enforcement squads in the .22 calibre events.

### ROTC Aids

The history of many pistol teams begins with the expansion of the ROTC after the World War; and even at that time, a team unofficially represented the Institute for the ROTC in many events. Pistol shooting however was curtailed by the Institute after an unfortunate accident, and it was not until 1936 that these restrictions were lifted because of the efforts of Lt. Col. K. B. Lawton. Lt. Col. Lawton managed to have pistol shooting re-established on an unofficial basis.

Two years later, the Advisory Council on Athletics granted the pistol team an official status in the M.I.T. A.A., establishing a precedent for such athletic recognition the country over.

### Army Follows Tech

At the beginning of the 1939-1940 season, the United States Military Academy followed Technology's lead in the field and formed a pistol team under the Army Athletic Association.

Subsequently, the sport was placed on an official basis in two Middle-Western colleges.

Technology's pistolmen set another precedent when the team journeyed to West Point on last Washington's Birthday for a match with Army. It was the first intercollegiate shoulder-to-shoulder pistol contest recognized by the Athletic Associations of both institutions represented.

The travelling pistol matches have become more prevalent and it is to be noted that Army met V.M.I., St. Bonaventure, and Cornell in meets where the latter all traveled to West Point to shoot. However, because of the distances between competing teams, most intercollegiate pistol competitions are held via the postman. On the basis of these matches, the 1940 Technology aggregation finished among the best half-dozen in the country.

With an increased scope of activities, the Institute shots have participated in three official intercollegiate shoulder-to-shoulder matches and four shoulder-to-shoulder matches with local opponents, besides participating in the four Metropolitan Pistol League meets. Last season, the M.P.L. meets offered the only shoulder-to-shoulder competition for the team.

An innovation of this season was the formation of a Jayvee team which also took part in the M.P.L. contests as well as did the freshmen. The frosh had their usual full postal schedule this year but, for the first time, fired in three position matches instead of the slow fire meets as formerly was the case.

# Knapp Leads Sailors To 5 Point Victory In First '41 Regatta

## Football Finals Renewed Sat.

Four Teams Complete Beaver Key Tourney This Week-End

Winding up the Beaver Key football tourney Sigma Chi will meet Phi Gamma Delta and Chi Phi will oppose Senior A at 2:30 P.M. on Saturday, April 12. Sigma Chi is scheduled to play Senior A, and Chi Phi, Phi Gamma Delta the next day also at 2:30 P.M.

Only four teams, Sigma Chi, Phi Gamma Delta, Chi Phi, and Senior A, qualified for the finals. The first two games of the finals were played last November in which Sigma Chi trounced Chi Phi 7-0, and Phi Gamma Delta downed Senior A by the same score.

The last four contests of the finals were originally scheduled to take place during the last week of November last, but were postponed till spring because of adverse weather conditions.

## Tech Paces Terriers As Eight Schools Vie For Brown Trophy; Huskies Take Third

Opening the intercollegiate yacht racing season, the Beaver dinghy sailors left the Charles last Saturday winner over eight other New England schools and with the Brown Trophy in their grasp. The Techmen scored 53 points to host team Boston University's 48.

Skipper Dick Knapp with the aid of George Palmer brought Tech's red division boat home in first place twice out of four races. In the blue division, the work of skipper Tom Crowley saved the lead gained through Knapp's two firsts from the close pressing Terriers.

### B. U. Press Beavers

The Boston University Terriers, using Tech Dinghies, tied the Beavers in the third race of the red division by taking second place to Knapp's third. But Knapp came back in the final race of that division to take first to B.U.'s fifth.

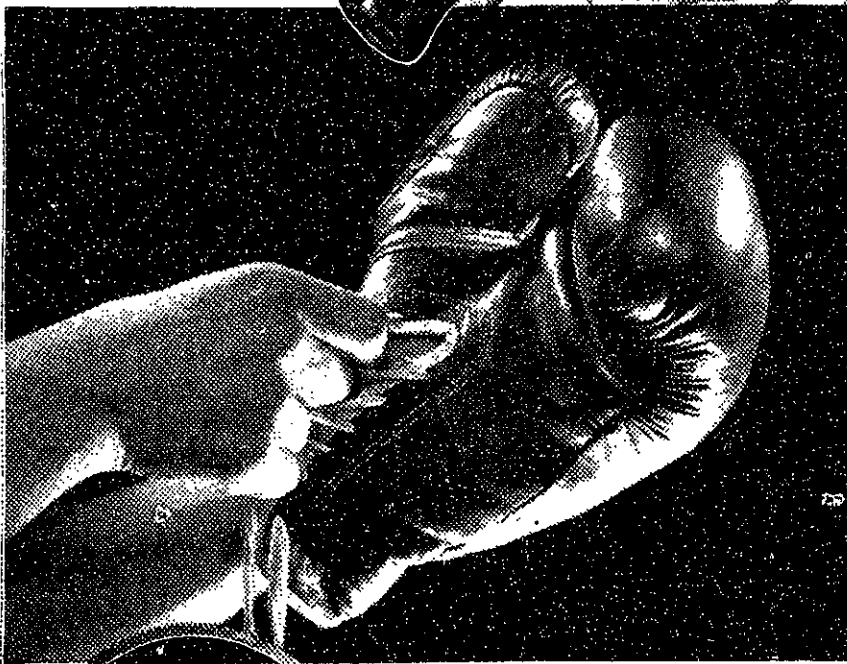

The fine maneuvering of skipper Tom Crowley saved the day for Tech (Continued on Page 4)

## CLASS OF '44 PRESIDENTIAL CANDIDATES

Robert B. Meny, '44

Langdon S. Flowers, '44

*That little bird is telling you...*

**"SPRING VACATION TRIPS COST LESS by GREYHOUND"**

You can't fool a little feathered friend about spring migrations! The smart bird knows that Greyhound is the easiest way to flit home to the family nest and back to college again when vacation time's over. The saving is plenty big—in both time and money — and the trip's more fun in a Super-Coach full of friends. There's an extra saving, as usual, on round-trip tickets. So be kind to your pocketbook—and to yourself—go Greyhound.

GREYHOUND TERMINAL  
60 Park Square, Boston

Jacksonville	14.00	26.10
Miami	18.65	33.60
Portland, Me.	1.75	3.15
Bangor, Me.	4.15	7.50
Nashville	14.10	25.40
New Haven	2.35	4.25

## Sailing

(Continued from Page 1)

In the second race of the blue division. In this race he and Ken Warden pushed B.U. to fifth, taking third themselves. In the third race they came in just behind the Terriers, and in the fourth and final race of the day, took second to B.U.'s fifth.

### Two Firsts for Knapp

The final scores placed M.I.T. ahead with two firsts, a second, and a third by Knapp and Palmer, and two thirds, a fourth and a second by Crowley and Warden for a final score of 53 points. B.U. finished second with 48, pressing closely all the way. Third was Northeastern with 45. In order the others were Brown and Coast Guard with 37 points each, Harvard with 30, and New Hampshire and Dartmouth with 19 apiece.

The Ralph E. Brown trophy race was not an official intercollegiate competition regatta. Initiating the season it will be held in the future at the now uncompleted Community Boat House across the Basin.

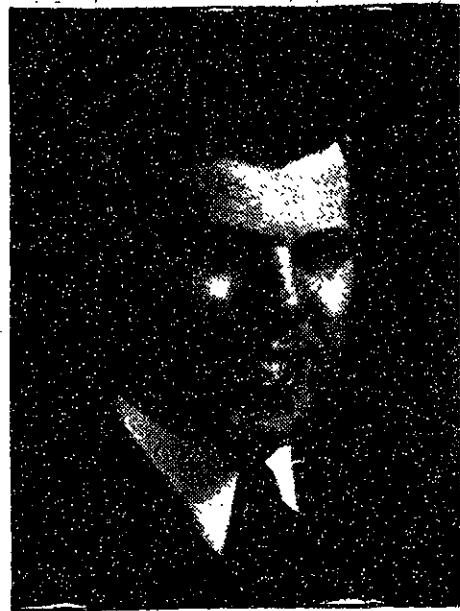

## Carnival

(Continued from Page 1)

receive one case of a soft drink. This prize was chosen because "third prize winners are incapable of handling anything stronger."

Bondholders who desire to do so may procure tickets by presenting their bonds at the ticket booth in the Main Lobby of Building 10. The price of the ticket will be deducted when the bonds are cashed. Tickets are now on sale in the lobby of Building 10 from 12-2 for eighty-five cents a couple.

## '43 CANDIDATE

S. Richard Childerhose, '43

The photo of the other candidate Karstrom was not available.

## Honorary Colonel May Draw Sr. Week Options

It is expected that Miss Meredith Stevens, Simmons Senior and Honorary Colonel of the Technology R.O.T.C., will be doing the drawing at the Senior Week Option drawing to be held at noon tomorrow in the Main Lobby of Building 10, it was announced last night.

The two winning numbers will entitle the owners to free redemption on their options. Seniors who have not as yet paid for their options with tuition pledges will be ineligible unless they pay by noon Wednesday.
